# INFUSION

## Products & Services Guide

Washington, D.C.

# NHIA25

March 29 – April 2, 2025

[conference.nhia.org](https://conference.nhia.org)

Connect with 130+ of the top infusion product and service suppliers and more than 1600 home and alternate site infusion professionals for the year's top education & networking event.

## About the Products & Services Guide

The companies featured here are dedicated supporters and NHIA supplier members of the home and alternate site infusion therapy community and bring to market solutions providers need to succeed. Their innovations propel us, enabling advances that improve the quality of patient care and enable efficiencies and cost savings.

This guide is a resource for busy clinicians, managers, reimbursement professionals, and sales and marketing experts. By making it “evergreen,” we hope to offer a quick and easy means of finding equipment, supplies, and other products and services that meet the unique demands of home and alternate site infusion care.

Special thanks to those companies in the supplier community that support the NHIA’s activities all year long. Your partnership helps to advance provider practice as well as the industry.

## Company Background

At ACU-Serve, we take a different approach. We specialize in optimizing your existing software systems and supplementing any gaps with our advanced technology. Our team of highly trained experts is dedicated to streamlining your Revenue Cycle, ensuring swift and accurate payments. Experience why Results Matter with ACU-Serve.

## Product & Services Overview

ACU-Serve is a leading provider of comprehensive solutions in the infusion industry, dedicated to improving operational efficiencies and financial outcomes for healthcare providers. Our range of services is designed to streamline processes, enhance patient care, and ensure optimal financial performance. Here's an overview of what we offer:

### 1. Intake Services

Our intake process is meticulously designed to provide a streamlined and hassle-free solution for managing orders, documentation, and insurance eligibility. We offer:

- **Dedicated Phone Line:** Exclusive communication channel for clients.
- **Customization:** Tailored standard operating procedures for personalized interactions.
- **Streamlined Handling:** Management of reports, charts, coding, and patient billing inquiries.
- **Enhanced Patient Experience:** Ensuring seamless processes and clear communication to enhance patient satisfaction and trust.

### 2. A/R Collections

Since 2008, ACU-Serve has been at the forefront of accounts receivable technology, revolutionizing claim management. Our A/R Collections services include:

- **Advanced Technology Integration:** Leveraging cutting-edge technology for comprehensive claim tracking and management.
- **Detailed Tracking and Visibility:** Meticulous tracking of each touchpoint of a claim.
- **Cash Posting Services:** Handling all aspects of cash posting, from payment processing and denial posting to identifying refund liabilities.

### 3. Revenue Cycle Management (RCM)

Our full suite of RCM services helps improve efficiency, coding accuracy, and financial performance. We assume the responsibilities of in-house billing staff, providing:

“Results Matter” is the guiding principle that shapes every aspect of our service. We are committed to delivering tangible results that drive your success. Our focus on optimization, technology, and expert support ensures that you achieve the best possible outcomes.

- **Claims Review:** Meticulous review of claims for intake, coding accuracy, and charge amounts.
- **Front-End Rejection Management:** Handling rejections and ensuring swift and accurate payments.
- **A/R and Denials Management:** Comprehensive management of accounts receivable and denials.
- **Documentation Retrieval:** Ensuring all necessary documentation is collected and processed.

### 5. Software Optimization

We ensure that healthcare providers are fully utilizing their existing technology investments, optimizing software to enhance operational efficiencies.

### 6. Advanced Analytics

Our advanced analytics provide visibility into every interaction with claims, identifying areas for improvement and eliminating unnecessary touches.

### 7. Dedicated Full-Time Team

ACU-Serve provides a dedicated full-time team to ensure focus and consistency, significantly increasing efficiency and quality while reducing costs associated with office space, equipment, software, management, hiring, training, and employee benefits and wages.

### Why Choose ACU-Serve?

**Results Matter:** Our guiding principle ensures that every aspect of our service is aimed at delivering measurable outcomes.

**Cost Efficiency:** Our solutions significantly decrease costs related to office space, equipment, and employee management.

**Enhanced Patient Care:** By streamlining processes and maintaining effective communication channels, we enhance patient satisfaction and trust.

## Company Background

Every day, millions of patients, caregivers, and healthcare providers rely on Baxter's leading portfolio of diagnostic, critical care, kidney care, nutrition, hospital and surgical products used across patient homes, hospitals, physician offices and other sites of care. For more than 90 years, we've been operating at the critical intersection where innovations that save and sustain lives meet the healthcare providers who make it happen. With products, digital health solutions and therapies available in more than 100 countries, Baxter's employees worldwide are now building upon the company's rich heritage of medical breakthroughs to advance the next generation of transformative healthcare innovations.

## Product & Services Overview

For nearly a century, we have been at the critical intersection of saving and sustaining lives. And now, we are determined and uniquely positioned to realize our greatest opportunity to transform global health for years to come.

- **Simplifusor Elastomeric Pumps:** With Simplifusor Elastomeric Pumps, you can help your patients with the mobility and freedom they need to help maintain independence at home.
- **ExactaMix Pro Automated Compounder** combines Baxter's trusted ExactaMix system with Pro features that help reduce risk and meet evolving needs in the pharmacy.
- **DoseEdge Pharmacy Workflow Manager:** Drive safety and efficiency by implementing DoseEdge, which can be customized to meet your unique needs.
- **Repeater Pump:** Designed to reduce the workload of pharmacy technicians, the repeater pump facilitates automated fluid transfer safely, accurately, and efficiently.

**It's All About Care Everywhere Care is Given.** When you're looking for a trusted partner to provide the products you need to care for your patients—wherever they are—turn to us.

"I highly recommend CitusHealth to streamline workflow, improve patient/staff communication, obtain needed documentation, and track patient appointments without time consuming phone calls or use of multiple applications." - *Julie Davis, Vice President of Operations, Landmark Healthcare*

## Company Background

Founded in 2016 by an internationally recognized digital health expert, Melissa Kozak, RN, BSN, CitusHealth delivers the only comprehensive on-demand digital and mobile platform that sets a new standard of patient, caregiver, family, and partner engagement.

## Product & Services Overview

The CitusHealth platform is a complete end-to-end solution specifically designed to help infusion providers and pharmacies accelerate speed to therapy – ultimately resulting in better outcomes and increased revenue.

### A comprehensive system of engagement

As experienced clinicians and operations leaders from the home infusion industry, we understand the challenges providers face when it comes to collecting data from patients to dispense their medication. Now more than ever, it's critical to provide real-time communication for patients, caregivers, and care teams to enable a higher level of collaboration. CitusHealth offers a completely integrated platform with digital, mobile, and app-less features.

### Must-have solutions for infusion providers

- **Schedule coordination and real-time nursing notes:** Expand productivity of clinical resources through secure, real-time messaging, schedule coordination, patient plan of care updates, and streamlined nursing notes and documentation.
- **Automated supply management:** Reduce supply waste, emergency supply deliveries, and other inefficiencies by capturing accurate supply counts remotely or at the point of care.
- **Secure, real-time patient communication:** Enable real-time patient and caregiver communication with clinicians and staff through secure messaging, specifically designed to be HIPAA compliant.

- **Customizable digital forms and workflows:** Accelerate billing timelines, increase cash flow, and improve compliance with streamlined referral and ordering processes, as well as more timely and accurate documentation.

### We're setting a new standard for patient care

- **On-demand resources:** Empower patients and caregivers with educational materials designed for their plan of care to support therapy adherence – available at any time, from nearly any device.
- **Secure video sessions:** Provide staff with secure video chat to troubleshoot patient concerns, injection training, side effect triaging, and learn of additional care required.
- **Digital signature capture:** Obtain signed documents with our mobile app, app-less link, or in person to expedite dispensing and reimbursement.
- **Multi-lingual patient and family communication:** Automatically translate messages to multiple languages to minimize communication barriers and reduce delays in care.

# PN2

## Bringing more to parenteral nutrition (PN)

As pioneers in PN, we offer more options to clinicians and their patients. Whether it's a long-standing lipid injectable emulsion, soybean oil-sparing alternatives, or an all-in-one solution, Fresenius Kabi **offers more choices** in PN.

Explore your options at  
[FreseniusKabiNutrition.com](https://www.freseniuskabinutrition.com)

Address:	3 Corporate Drive, Lake Zurich, IL 60047
Email:	communications.USA@ fresenius-kabi.com
Website:	<i>FreseniusKabiNutrition.com</i>

## Company Background

Fresenius Kabi USA is a pioneer and global leader in clinical nutrition with innovations that nourish at every age and stage of life. Our parenteral nutrition (PN) products are used to help care for critically ill and chronically ill patients in hospitals, long-term care facilities, and at home.

With a tireless dedication to driving advancements in lifesaving medicines and technologies, we've introduced many firsts in the field, including the use of fish oil in PN products because we know that lipid source matters when considering appropriate nutrition for patients. We're committed to supporting marine conservation by ensuring that the fish oil in our products is sustainably sourced.

We're proud to not only fulfill the need for alternative lipid emulsions, but also to facilitate peer-to-peer interactions, industry partnerships, patient education, and social communities. We're also dedicated to helping patients get access to innovative PN products. We created the KabiCare Patient Support Program for Parenteral Nutrition, an online resource, to guide healthcare providers through the challenges of PN reimbursement and simplify the treatment journey for their patients on PN.

## Product & Services Overview

**SMOFlipid®** (Lipid Injectable Emulsion, USP 20%): the first and only 4-oil lipid injectable emulsion (ILE) for patients of all ages.

**Omegaven®** (fish oil triglycerides) injectable emulsion: the first and only 100% fish oil ILE for pediatric patients with parenteral nutrition-associated cholestasis (PNAC).

**Intralipid®** (lipid injectable emulsion, USP 20%): a 100% soybean oil lipid emulsion that is well documented in medical literature and has been provided worldwide in more than 200 million infusions for adult and pediatric patients.

As pioneers in clinical nutrition, we have innovations that nourish patients of any age. Our parenteral nutrition products are used to help care for critically ill and chronically ill patients in hospitals, long-term care facilities, and at home. We're proud to be the US market leader in lipid injectable emulsions.

**Kabiven® / Perikabiven®** (Amino Acids, Electrolytes, Dextrose, and Lipid Injectable Emulsion), for intravenous use: the first and only three-chamber bag for PN to deliver three macronutrients (dextrose, protein, and lipids) plus electrolytes in volumes and concentrations that meet the needs of most adult PN patients.

Please see important safety information and full prescribing information for all products at: [FreseniusKabiNutrition.com/pn-portfolio/](https://www.freseniuskabinutrition.com/pn-portfolio/).

Our purpose is putting lifesaving medicines and technologies in the hands of people who care for patients and finding solutions to the challenges they face. We work shoulder-to-shoulder with healthcare professionals to help improve medication safety, design products that are easy to use, and help make medicines more accessible and affordable across the continuum of care. **See how we can help your critically and chronically ill patients flourish with our portfolio of clinical nutrition products at [FreseniusKabiNutrition.com/pn-portfolio/](https://www.freseniuskabinutrition.com/pn-portfolio/).**

## Company Background

Naven Health is a nationwide provider of next-level infusion nursing care and beyond. With over 1,600 team members, including over 1,500 nurses\*, we are a company aligned to the values of the nurses at our center – to provide an exceptional infusion experience, everywhere.

With one of the largest nursing networks in the country, we are committed to caring for others by delivering highly specialized, truly exceptional infusion care. With services in all 50 states, we help put nurses where you have patients.

\*Visit [navenhealth.com/about-us](https://navenhealth.com/about-us) to learn more about nurse availability.

## Product & Services Overview

Naven Health delivers high-touch, skilled nursing services, including home infusion services for a broad range of therapies, clinical trial staffing services, and specialized support for pharmaceutical and healthcare programs. We believe exceptional care is born from our compassion and desire to serve, as much as our skill. Through technology, processes, and clinical capabilities, Naven Health provides a centralized platform to expand access to clinical resources and extraordinary care across the United States.

### Specialized Therapies Drug Administration:

- We provide a broad range of therapies alongside supportive patient services, including Alpha 1 Therapy, Hemophilia Therapy, Enzyme Replacement Therapy, Biologic Therapy, Inotropic Therapy, HIV Therapy, Antibiotic Therapy, Steroid Therapy, Immunotherapies (IVIG & SCIG), patient self-administration teach & train, and first-dosing.

### Clinical Trial Nursing and Support Services:

- Our services include comprehensive decentralized clinical trial project management and clinical trial nursing support.

Naven Health aims to be your most trusted partner in delivering exceptional infusion care to patients nationwide. The possibilities are endless when we work together.

Our dedicated team of clinical trial nurses is already familiar with standard requirements and protocols, which can support quicker training, fewer reporting errors, and better documentation.

### Specialized Support for Pharmaceutical and Healthcare Programs:

- We develop custom programs for pharmaceutical and healthcare customers to help optimize patient care and drive toward better outcomes through highly specialized nurses, customized education support, therapy adherence programs, and so much more.

*"Naven Health provides exceptional care and is very responsive to patient, provider, and pharmacy needs. Naven Health is communicative and understands the ever-changing nature of the home infusion environment which is why we choose to partner with Naven Health to serve our patients."*

Our team is dedicated to creating the best Cleanroom Laundry Service Program for you.

## Company Background

Since its inception in 1960, Prudential Cleanroom Services (PCS) has been at the forefront of providing superior cleanroom apparel services. What started as a humble endeavor has flourished into a renowned global entity, serving a wide spectrum of industries such as bio-science, pharmaceuticals, medical devices, semiconductors, aerospace, and beyond.

At Prudential Cleanroom Services, we specialize in delivering tailored cleanroom solutions to facilities involved in the compounding and preparation of medications and sterile infusions. Our comprehensive services ensure that medications are manufactured under meticulously controlled conditions, mitigating the risk of contamination, and maintaining patient safety.

By utilizing PCS's services, businesses gain access to top-tier sterile gowning and essential ancillary items crucial for maintaining cleanroom standards and ensuring accurate gowning procedures. This not only reinforces cleanroom standards but also bolsters operational efficiency and regulatory compliance.

One distinguishing feature of Prudential Cleanroom Services is our unwavering commitment to excellence. We take immense pride in being the sole national provider with all locations certified to the ISO 9001:2015 standard. With a rich history as industry pioneers, coupled with our relentless pursuit of improvement year after year, PCS offers unparalleled value as your trusted cleanroom garment service partner to deliver unmatched quality and reliability.

## Product & Services Overview

**Cleanroom Uniforms and Apparel:** Prudential carries both sterile and non-sterile garments for a variety of cleanroom needs. Our products utilize non-linting, high density fabrics that are resistant to liquids and bacteria.

**Non-Garment Reusable Products:** From mops to goggles, Prudential aims to provide comprehensive support for your cleanroom facilities. We carry both sterile and non-sterile garments for a variety of cleanroom needs.

**Cleanroom Fabric Study:** Prudential offers the contamination control industry an independent third-party cleanroom fabric study that credibility tests and rates the industry's most widely recognized fabrics.

As a leading supplier of infusion pumps, biomedical services and supplies, InfuSystem provides solutions to help facilitate infusion therapy at hospitals, clinics and outpatient centers to positively impact the continuity of patient care. Our patient-first approach ensures that a steady supply of trusted and reliable infusion pumps and supplies is patient-ready. We offer a large, sustainable durable medical equipment fleet, patient services and robust biomedical device services, including preventative maintenance care via on-site and depot services across the U.S. and Canada.

## Product Overview

InfuSystem’s Device Solutions cover direct payer rentals, pump and consumable sales, and biomedical services and repair, including a wide selection of top-brand infusion pumps and related supplies, including ambulatory, large-volume, enteral, pole-mounted, syringe infusion and wound vac pumps with preventative maintenance, repair and inventory tracking to avoid downtime and reduce costs.

 **ACTIONABLE INSIGHTS**
 **PERFORMANCE VISIBILITY**

## Trella Health

### Company Background

Trella Health’s unmatched market intelligence and purpose-built CRM allow infusion organizations to drive effective performance and growth with an integrated platform to identify the highest-potential referral targets, evaluate market opportunities, and monitor performance.

Paired with CRM and EHR integrations, business development teams can better manage referral relationships to advance their organizations by improving their sales and marketing strategy.

### Product & Services Overview

Trella Health’s platform includes:

- **Market Insights:** Gain deep visibility into referral sources and competitive activity.
- **Customer Relationship Management (CRM):** Nurture referral relationships, automate sales productivity, and track key business objectives and ROI with configurable, industry-specific reports.
- **EHR Integration:** Track referral stages, attribution, and success measurements.

Trella Health continues to diversify its dataset to include more payer sources with enhanced insights across the care continuum. Recently, Trella increased its medical and pharmacy claims volume by 2x – covering over 255 million patient lives annually.
