UPDATE: Product Allocations – Hurricane Impact on Baxter’s North Cove, NC Facility

Dear Valued Customer:

In follow-up to Baxter’s October 1 implementation of product code allocations in response to Hurricane Helene’s impact on our North Cove, NC facility, we are pleased to share an increase in allocation levels across several product categories. **Updated allocation levels are listed in this letter and will be consistent across Baxter’s direct customers and distribution partners, effective Wednesday, October 9.** Due to the vulnerable patient population they serve, effective today, all allocations for designated children’s hospitals were increased to 100%. Health systems that are not designated as a children’s hospital but have key pediatric services, including pediatric emergency departments, NICUs or PICUs, should contact their Baxter representative with any questions about allocation levels. Information on Peritoneal Dialysis products will continue to be communicated separately to home patients and customers.

Our top priority is helping to ensure reliable product supply for our customers and patients, while confirming the safety of our employees and their families. We continue to work around the clock to assess the impact of this dynamic situation and implement a plan to bring the facility back online as quickly as possible.

Allocations are listed below by product category and in Table 1 at the end of this letter by product code. Allocations for your facility are determined based on historical ordering from March 1, 2024 to August 31, 2024.

Product Category	Allocation
BREVIBLOC Premixed Injection (Esmolol Hydrochloride) in Sodium Chloride	60%
Cardioplegic Solution for Cardiac Perfusion	60%
Clinimix	100%
Dextrose (High Concentration)	75%
Sterile Water for Injection (Pharmacy Bulk Package)	90%
Intravia Empty Bags	100%
Irrigation Bag Solutions	40%
Mini-Bag Plus	100%
Viaflex IV Solutions – Large Volume (Saline and Dextrose)*	60%
Viaflex IV Solutions – Large Volume (Other)	40%
Viaflex IV Solutions – Small Volume	100%
Viaflo IV Solutions – Large Volume	100%

*Represents high-demand IV solution codes

We understand the critical importance of supply continuity and are committed to continuing transparent and proactive communications with you. Regular updates on this situation are posted to Baxter’s website at <https://www.baxter.com/baxter-newsroom/hurricane-helene-updates>.

For medical information, support or questions regarding conservation strategies, please contact MedInfo@Baxter.com or call 1-800-933-0303.

Thank you for your patience and partnership as we navigate this difficult situation.

Sincerely,
